

## Ri Off the Shelf Masterclass: Inclusive Technology

### Worksheet 1 – Inclusive tech match up

Read through the examples of inclusive technology below, then listen to each person's story that you come across. Match up each person with the technology that you think may best help them.

Voice Assistant	Electric Wheelchair	Screen Reader	Hearing Aid
			
Answers questions and completes tasks when you speak to it.	Helps people move around without having to push or walk.	Reads words on the screen out loud for someone who can't see well.	Makes sounds louder for people who have trouble hearing.

Braille Label Maker	Magnifying App	Easy Grip Cutlery	Automatic Door
			
Prints labels in braille so blind people can read them.	Makes text or pictures bigger on a phone or tablet.	Makes eating easier for people with limited hand movement.	Opens doors for people who can't push them easily.

1. The tech that may help Lily is \_\_\_\_\_
2. The tech that may help Max is \_\_\_\_\_
3. The tech that may help Sofia is \_\_\_\_\_
4. The tech that may help Jaden is \_\_\_\_\_
5. The tech that may help Amira is \_\_\_\_\_
6. The tech that may help Ethan is \_\_\_\_\_
